МАТЕМАТИЧЕСКИЙ СБОРНИК
Том 132 (174) (1987), вв. 1–4
MATHEMATICS OF THE USSR—SBORNIK
Volume 60, Numbers 1–2, 1988

AUTHOR INDEX

Bazalīĭ, B. V. and Degtyarev, S. P. *On classical solvability of the multidimensional Stefan problem for convective motion of a viscous incompressible fluid* 1

Belinskiĭ, È. S. *Approximation by a "floating" system of exponentials on classes of smooth periodic functions* 19

Chirka, E. M. See Sadullaev, A.

Davydov, A. A. *The normal form of slow motions of an equation of relaxation type and fibrations of binomial surfaces* 133

Degtyarev, S. P. See Bazalīĭ, B. V.

Dranishnikov, A. N. *On homological dimension modulo p* 413

Gonchar, A. A. and Grigoryan, L. D. *On an estimate of the components of bounded analytic functions* 291

Grigor'yan, A. A. *On Liouville theorems for harmonic functions with finite Dirichlet integral* 485

Grigoryan, L. D. See Gonchar, A. A.

Guseĭnov, E. G. *Singular integrals in spaces of functions summable with a monotone weight* 29

Iosif'yan, G. A., Oleĭnik, O. A. and Shamaev, A. S. *On the eigenvalues of boundary value problems for the system of elasticity theory with rapidly oscillating coefficients in a perforated domain* 505

Kalyakin, L. A. *Asymptotic decay of a one-dimensional wave packet in a nonlinear dispersive medium* 457

Kamynin, V. L. *On passage to the limit in quasilinear elliptic equations with several independent variables* 47

Klyuchantsev, M. I. *Introduction to the theory of $(\nu_1, \dots, \nu_{r-1})$-transforms* 163

Kolmakov, Yu. A. *Conjugacy separability of some factor groups of a free product* 67

Korotyaev, E. L. *On the scattering theory of several particles in an external electric field* 177

Lelikova, E. F. *Asymptotics of a fundamental solution of a parabolic equation as $t \to \infty$* 315

Levitan, B. M. *Sturm-Liouville operators on the whole line, with the same discrete spectrum* 77

Lin, V. Ya. *Liouville coverings of complex spaces, and amenable groups* 197

Makanin, G. S. *Separable closed braids* 521

Maz'ya, V. G. and Sulimov, M. G. *Asymptotics of solutions of one-dimensional difference equations with constant operator coefficients* 437

Mit'kin, D. A. *An estimate for the number of terms in the Hilbert-Kamke problem.* II. 339
Morzhakov, V. V. *On epimorphicity of a convolution operator in convex domains in* C^l 347
Nenashev, A. Yu. *Multiplicative properties of the Fourier coefficients of Siegel modular forms for principal congruence subgroups of the group* $\mathrm{Sp}(n, \mathbf{Z})$ 237
Nguen Din' Kong [Nguyễn Đình Công]. *On the stochastic stability of the Lyapunov exponents of equations of arbitrary order* 217
Nguen Khung Shon [Nguyen Hung Son]. See Vovsi, S. M.
Oleĭnik, O. A. See Iosif'yan, G. A.
Panyushev, D. I. *Orbits of highest dimension of solvable subgroups of reductive linear groups, and reduction for U-invariants* 365
Radzievskiĭ, G. V. *On the linear independence of the Keldysh derived chains for operator-valued functions analytic in a half-plane* 547
Sadullaev, A. and Chirka, E. M. *On continuation of functions with polar singularities* 377
Safonov, M. V. *Unimprovability of estimates of Hölder constants for solutions of linear elliptic equations with measurable coefficients* 269
Shamaev, A. S. See Iosif'yan, G. A.
Sorokin, V. N. *Convergence of simultaneous Padé approximants for a class of functions* 385
Sulimov, M. G. See Maz'ya, V. G.
Takhtadzhyan, L. A. See Zograf, P. G.
Talalyan, A. A. *On uniqueness of multiple trigonometric series* 107
Tret'yak, A. I. *On necessary conditions of arbitrary order for optimality in a time-optimal problem* 255
Tyrin, A. V. *The regularity of maps of Riemannian manifolds that minimize the multidimensional Dirichlet functional* 395
Ulanovskiĭ, A. M. *On functions of bounded variation that are determined by restriction to a semiaxis* 427
Vershinin, V. V. *On the decomposition of certain spectra* 283
Vovsi, S. M. and Nguen Khung Shon [Nguyen Hung Son] *Identities of almost stable group representations* 569
Zelikin, M. I. *Synthesis of optimal trajectories on representation spaces of Lie groups* 533
Zograf, P. G. and Takhtadzhyan, L. A. *On Liouville's equation, accessory parameters, and the geometry of Teichmüller space for Riemann surfaces of genus 0* 143
———. *On uniformization of Riemann surfaces and the Weil-Petersson metric on Teichmüller and Schottky spaces* 297
